

G. Barrie Heizenknecht

Senior Advisor

Barrie Heizenknecht brings to Dawson & Associates more than thirty years of private sector experience involving the National Environmental Policy and Clean Water Acts.

During his environmental consulting career, Barrie has been responsible for regulatory compliance on numerous major engineering and environmental projects. His specialty includes federal policies on water resources, energy, waterfront development and transportation.

Other Experience

- Successfully handled FERC license applications for a 2,000 megawatt pumped storage hydroelectric project in New Jersey and the Lake Livingston hydroelectric project in Texas
- Oversaw site selection studies for locating flow augmentation reservoirs in the Delaware and Susquehanna River Basins
- Designed wetland mitigation plans for 14,000 acres of Delaware coastal wetlands that involved State relicensing of PSE&G's Salem Nuclear Station
- Planner, Bergen County Planning Board, N.J. (1968-1970)
